## EVENING BULLETIN

DAILY, "XCEPT SUNDAY, ROSSER & McCARTHY, Proprietors.

THURSDAY, JANUARY 15, 1891

DR. C. W. MATHERS, Judge Morford and W. A. Wilson, of Nicholas, and W. A. Morris, of Robertson, all want to represent that district in the next Legislature. The fight promises to be red-hot-

THE editor of this paper not only gets these papers, in getting out about half a dozen exchanges. The latter work is "free gratis," of course.

JUDGE SAM J. PUGH, of Vanceburg, is mentioned as likely to be the next Republican nominee for Atterney General. Just imagine the Judge "locking horns" with Jack Hendrick in a joint debate on the political issues of the hour.

THE Warren County Wheel has indorsed Dr Clar ly for Governor, with Hon.

In the last issue of the Bourbon News there were ten news items on one page copied bodily from this paper. The EVENING BULLETIN must be a great help to about half a dozen editors we could name, the News not being alone in this business of "appropriating."

COLONEL WILLIAM O. BRADLEY says he is "out of politics," but those who profess to know are confident he will be the trial was granted because one of the next Republican nominee for Governor, jurors had indulged in drinking whisky, However, Kentucky Republicans are not while having the case under consideradwelling together in entire harmony, and tion. At the second trial a mistake in there are those who will fight him bit erly if he should put himself forward.

THE news from Owenton is that the brilliant Hon. Evan E. Settle will not enter the contest for Attorney General. Judging from the talk in the papers, Fleming's eloquent young Democrat, Hon, W. J. Hendrick, has a good lead in tie race for that office. And it will take a runner from Runnersville to beat him.

SEVENTY-TWO voters at Winchester will practically enjoy the privilege of deciding all municipal contests at that place this year. They are the only ones who registered under the law which recently went into effect up there, and there is only one colored man in the number. Evidently outwears justice, and the machinery of the the progressive city of Winchester isn't courts becomes contemned for slowness much struck on the registration of voters.

AFTER a careful canvass among its subscribers, the Farm and Home, published at Chicago and also at Springfield, Mass., says: "Certain it is that Mr. Cleveland's phenomenal popularity among farmers other man to strive for first place on the Democratic ticket," The vote stood: For Cleveland, 71,770; Hill, 17,114. If Governor Hill is a sensible man, he will take the New York Senatorship, and bide his time till '96

Ir looks like the east side of Market be given up almost entirely to the saloon | pects. business before long. There are about fifteen houses on the square and liquor is sold in seven of them now, and will be for license to run a saloon in the building just vacated by H. Oberstein.

The street is one of the most frequented in the city, and ladies who pass that way now on County Court days and Saturday evenings are frequently greatly annoyed by the crowds of half-drunken negroes, who loaf about the entrances to the saloons. The Marshal should see that such crowds are dispersed hereafter.

From the Bowling Green Times it appears that the impression is gaining upon the citizens of that place that sixteen Councilmen are more than the city needs to look after its internsts, and an effort will be made to reduce the number to eight when the Legislature meets again. " But a more radical and important reform than this is also in contemplation," says the Louisville Courier-Journal. "This is to abandon the ward system in electing Councilmen and to choose those functionaries by a general vote. This method of selecting Councilmen is gradually obtaining recognition as the best by which to destroy the at present ompipotent sway of the ward bummer in municipal affairs. The heeler is able easily to manipulate matters when he has only one small precinct to look after, but when he is required to spread himself over a whole city he finds the hitherto despised 'respectable element' too much for him. But the Constitutional convention is doing a little tinkering on the question of municipal government and may forestall the Park City."

### "Laughter From Start to Pinish."

That new farce comedy, "A Pair of Jacks," which is proving such a success wherever played, will be produced at the opera house to-night. The company was at Lexington Monday night and the Press tor of the Millersourg Christian Church.

"The best feature of the entertainment was the music. Everybody sang. It was very evident that no one was allowed in that company who didn't have a voice of some description. Miss Winifred Johnson is the best female banjo performer ever in the Lexington Opera House. She was encored until she got tired-and the out the Evening Bulletin and Weekly audience, too-of clapping. The topical BULLETIN, but he assists largely, through | choruses sung by Knowles, Booker and Roach, also made a hit. The baritone of Will M. Armstrong is superb. His voice is rich and musical and his dramatic talent adds graphically to the effect of his vocalism. Henry C. Stanley's imitation of the stutter fairly convulsed the andience. The Highland Fling, danced by Misses Johnson, Lamont and Anderson, who were attired in perfect Scotch style, was unusually good.

"The comedy work of R. G. Knowles and George A. Booker, who were the Cassius M. Clay for second choice. The 'Pair of Jacks,' one a lawyer and the othskirmishing among the candidates is get- er a doctor, both the image of each other, ting pretty lively. They are getting their and the warmest of friends, was excellent. followers in line for the fight next sum- The ludicrous situations which grow out of their likeness to each other form the links on which the plot is hung. A night spent with the 'Pair of Jacks' is a night well spent. Nothing but laughter from start to finish, and good, wholesome enjoyment."

### "Outwearing Justice."

Says the Lexington Press of the Bole Roberts murder case: "It was tried once with a verdict of nineteen years. A new copying the instructions made them provide punishment not less than ten nor more than twenty-one years. The jury brought in a verdict of ten years. It was then discovered that the instructions were incorrect, and, as to punishment, 481,181 over 1889. should have read from two to twenty-one years. The error was done by the copyist, who read ten for two in Judge Morton's indifferent caligraphy. The jury was sent back with the corrected instructions, and they returned a verdic of two years, which was reversed on the ground that the Judge should have granted a new trial in place of correcting the verdict."

The Louisville Times remarks: "It is by aid of such trifles as these that crime and inefficiency."

### Where Is Joe Mulhatton?

The American Dairyman is responsible for the story of "the existence of a cow at Chillicothe, O., of Jersey-Shorthorn-Ayrahire blood and the property of Mr. R. Hansborough, which gives black milk. Her milk produces a fair amount of cream, which is a trifle lighter when churned and makes a butter resembling coal tar, but as palatable as though of golden yellow. At first there was some hesitancy about using the milk in any way, but now it is enjoyed as well as any other. Chemists in Richmond and Washington have analyzed the milk both fresh and in the butter and cannot account for its sable color, but attribute it to some unique coloring pigment in the corpuscles of her blood,"

Among the divorces granted at Cincinnati Monday was one to Mary Young from Geo. Young. The Enquirer says: They were married in 1886. Three months afterward he went to the work house for larceny. On his release he went to Mayaville, and got into trouble. He broke jall and the next heard of him he was at Los Angeles, Cal.

Young is one of the fellows who grabbed a diamond stud out of Dr. Phillips' shirt front at a Democratic rally at the court house two years ago. They were ment still stands against them.

### Churches and Preachers.

There are said to be 4,400 churches and 500 parsonages in this State, the estimated value of which is \$13,000,000

Elder Kokendoffer has resigned as pasand will go to Kansas City to take charge of a church at that place.

The Lexington Press has received nearly \$200 for Rev. George O. Barnes, and Richmond has sent \$200 in answer to his appeal from Scotland.

The Kentucky Methodist evidently means business. A recent issue contains the following: "The brethren will please send in notice of all Methodist people who give dances in their homes, and are not disciplined for their violation of the rules of the church.

In a letter to the Paris Kentuckian-Citizen, Rev. J. A. Sawyer, Presiding Elder of the Cumberland Gap district, says: "I have advertised for sealed bids to build church houses in Hazard, Perr County, and Hindman, Knott County. Neither of these counties has a church

### Opposed to Taxing Cemeteries.

The Louisville Times correspondent COF says: "Referring again to Judge Whitaker's speech against the taxing of cemeteries, later reports show that he put himself into the twilight picture, where, with only the moon and constellations for witnesses, he saw coming toward him in the pretty cemetery a beautiful woman. Jack Hendrice, who sat by him, is said to have whispered to him that it wasn't right for a man of his age to be meeting a beautiful woman in so lone a spot at that hour, and it was then he brought in the tax-gatherer and the sea-gull in the capacity of chaperones. Everybody wondered if sea-gulls ever got as far away from home as the banks of the Ohio at Maysville, but the word-painting wasn't spoiled by any interruptions from irreverent or irrelevant questions."

Brief Paragraphs About Railways. The gross earnings of the C. & O for 1890 were \$7,075,671, an increase of \$1,-

The gross earnings of the Kentucky Central last year amounted to \$1,001,041, an increase of \$25,198 over 1889.

in this country last year, 700 miles more than in 1889. Kentucky built 222 miles, only five Southern States making a better showing.

It is figured that the United State has a mile of railroad for each 400 of population and each 22 miles of area, while the balance of the world has a mile for each 7,500 of population and 236 miles of

Americans Must Have the Same Rights Halifax, N. S., Jan. 15.—Advices from St. Johns, N. F., are to the effect that the visit of Colonial Secretary Bond to Washington to negotiate a reciprocity treaty with the United States resulted in a fiasco. Unless Americans can secure a monopoly of Newfoundland bait they will not open their markets to fish from that colony. If French and Canadian fishermen are to get free bait the same international privilege must be accorded to Americans.

### Fires in New York.

NEW YORK, Jan. 15 .- A fire which originated yesterday morning, at 1:30 o'clock, in the third story of 195 West street, occupied by Beattie & Bottle, lithographers, quickly spread to 193, adjoining, occupied by Sturgess & West cott, dealers in oils and paints, both of which closes were actival. which places were entirely gutted. The loss is placed at \$100,000. The fire is supposed to have been caused by an explosion of some of the oils.

### A Noteworthy Exception.

From the Kimball (S. D.) Graphic: While the columns of the Graphic are open to any and all unobjectionable advertisements, yet it is quite impossible for us to speak knewingly of the merits of various articles of merchandise advertised. Particularly is this true of patent medicines. But there are exceptions occasionally and a noteworthy ex-ception is the celebrated Chamberlain's Cough Remedy. This now universally known medicine has been advertised in the Graphic for four or five years but not until recently had we any personal knowledge of its wonderful efficacy which has come about through the prevailing influenza and the stubborn cough that has so often attended it. In the writer's family this medicine has on several occasions this winter cured a cough that baffled any and all other medicines; and the number of families in Kimball and vicinity, in which this remedy has been used with like effects, attests to its value as a specific for coughs and colds of every nature."
